DETAILED ACTION

Allowable Subject Matter

1. Claims 1-7 are allowed over the prior art of record.
2. The following is an examiner's statement of reasons for allowance:

The prior art of record alone or in combination fails to teach or suggest: in claim 1, a processing section for processing a radial push-pull signal by means of autocorrelation; and a determining section for determining the type of recording medium based on the data send from said processing section by detecting the presence of wobble. See also applicant's arguments on page 4, last paragraph through page 5, paragraph 2, which clearly define the claimed term "autocorrelation".

Claims 2-6 are dependent upon claim 1.

Claim 7 has limitations similar to those of claim 1.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
